1) Make sure you have [http://marvel.com/games/play/34/create\\_your\\_own\\_comic](http://marvel.com/games/play/34/create_your_own_comic) opened in a new window (you should have done this already if you clicked the links on the wiki page.) If you have clicked both of the links, DO NOT CLICK THIS LINK FROM THESE DIRECTIONS!

2) Click where it says 'create a comic book'

Then a pop-up window will appear.

click OK – you will not be registering on this site.

3) Choose the type of comic book strip that you want, you have many to choose from. Click the one you want, then hit OK.

4) Now you will be able to edit your Comic strip. Pick characters and put things on each page of the comic. You can add more pages to your comic if you like.

5) THE ASSIGNMENT IS: you will need to pick characters and pretend that they are involved in some sort of 'career'. You will use the TEXT EDIT box to make text boxes. YOU WILL NEED TO HAVE A TEXT BOX

SAYING WHAT CAREER YOU HAVE IS BEING DISPLAYED. To create a text box, click on the  on the left hand side. Then click on the comic where you want your text to be displayed. If you want your text

to be displayed inside of a dialogue bubble, add the Dialogue bubble by clicking dialogue on the right and choosing which dialogue bubble you want.

6)If you need ideas for what to do for a career, use the STUDENT OCCUPATIONAL OUTLOOK HANDBOOK book at your desk to get an idea of what to use as a guideline for what your career does.

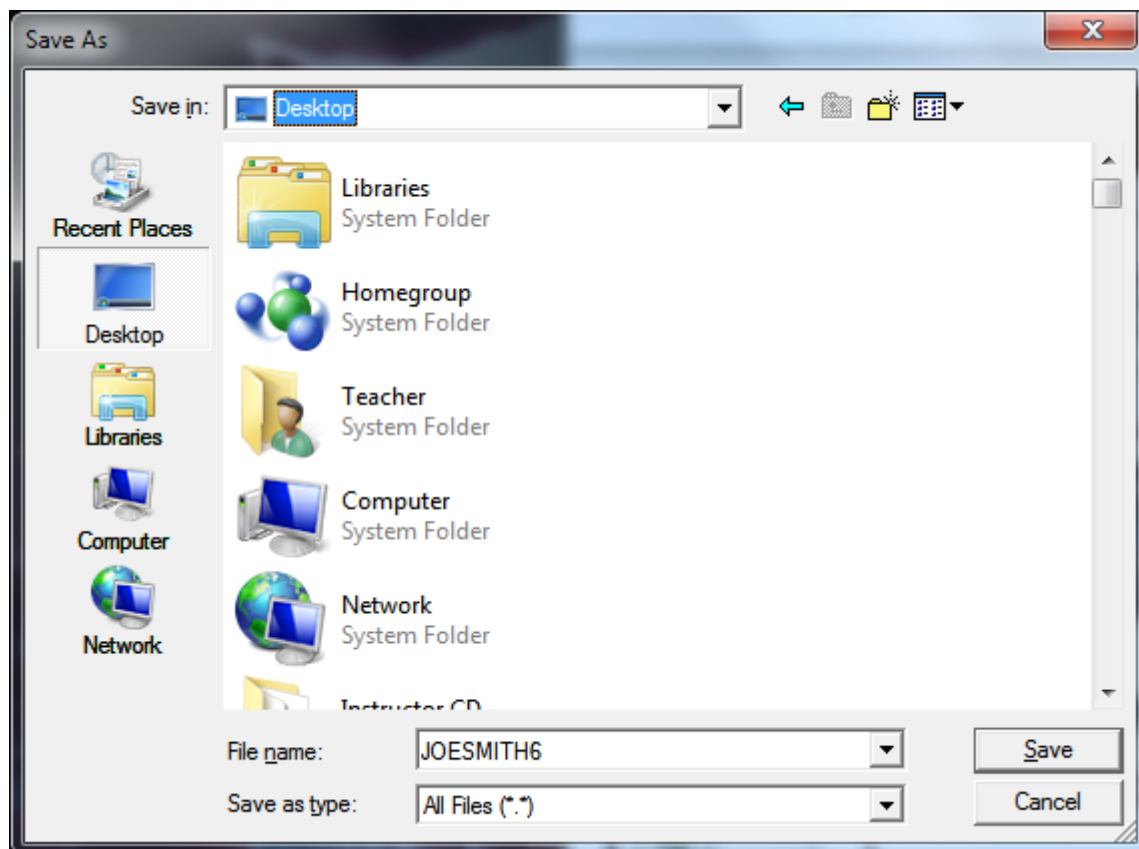

7)For example, you will pick some superheros and have them doing whatever you want in the comic – if they are pretending to be a doctor, put that in the text somewhere and show them doing something in the comic.

8)For each comic strip, make sure you choose a background. Click BACKGROUNDS and drag and drop the background you want on each piece of the comic strip. Next pick characters to drag and drop. You can pick objects and also dialogue boxes. WHEN YOU CHOOSE A DIALOGUE BOX, then you go to the menu on the left, and click the large letter T. When you click the letter T, you will then click where you put the dialogue box, and you will be able to type whatever you want. You may also choose ‘sound effects’.
